Dear

On behalf of the American Cleft Palate-Craniofacial Association (ACPA), it is my pleasure to formally invite you to attend ACPA's 74th Annual Meeting and Pre-Conference Symposium to take place in Colorado Springs, Colorado USA from March 13-18, 2017.

Highlights of ACPA's 74th Annual Meeting will include the following:

- The Pre-Conference Symposium, "A Pathway to Adulthood Treatment", held on March 13th, will focus on patient transition to managing adult care.
- The Study Session and Eye Opener sessions will offer a wide variety of interesting material relevant to clinical care and research; inter-center collaborative studies, clinical outcomes, interdisciplinary team care issues, and the latest in the management of craniofacial conditions.
- Our Annual Gala will be held on Thursday, March 16th.

Please be prepared to actively participate in these and other sessions which provide training in several areas pertinent to giving comprehensive care to patients with craniofacial and cleft palate anomalies. You will be required to participate in discussions with colleagues in your field, where you will gain valuable knowledge. Many of the sessions provide Continuing Education credits upon your completion of an online survey of the meeting. Please note that this year we will not accept cash payments at the meeting.

If you have any questions, or if you need further assistance in any way, please feel free to contact the National Office by e-mail at meetings@acpa-cpf.org or by phone at (919) 933-9044.

Sincerely,

Bernard J. Costello, DMD, MD, FACS
ACPA 2017 Program Chair & Vice President
